

# CONTENTS

## **Instrument Engineering, Metrology, Information-Measuring Instruments and Systems**

<b>Kuzovlev V.I., Ivanova N.A.</b> VLSI Circuit Detection Through Tangled Logic Structures.....	4
<b>Murashov M.V., Panin S.D.</b> Features of a Finite Element Solution to Calculating Real Contact Area of Rough Bodies .....	19

## **Informatics, Computer Engineering and Control**

<b>Tonoyan S.A., Vysochanskiy V.A.</b> Enterprise Data Warehouse Design Method using SAP Net Weaver Business Warehouse .....	33
<b>Rudakov I.V., Gurin R.E.</b> Synthetic Software Verification Method using SMT-Solvers .....	49
<b>Zubov N.E., Mikrin E.A., Ryabchenko V.N.</b> Output Control of Large Dynamic System Spectrum .....	65
<b>Boychenko M.K., Ivanov I.P., Kondrat'ev A.Yu., Lokhturov V.A.</b> Regulating Loads of Network Interfaces using Ping Utility of ICMP Protocol .....	74

## **Aviation, Rocket and Space Engineering**

<b>Sumarokov A.V.</b> On Pointing of High Resolution Camera Mounted on the International Space Station using Biaxial Rotating Platform .....	85
<b>Zhirnov A.V., Timakov S.N.</b> Algorithm of Thruster Failure Detection for the International Space Station Based on Self-Adjusting Onboard Model of Angular Motion Dynamics .....	98
<b>Starovoitov E.I., Zubov N.E.</b> Accuracy Analysis and Optimization of a Receiving Channel of Onboard Laser Ranging System while Measuring Medium Distances to Space Objects .....	115

## **Physics**

<b>Sudakov V.F.</b> Method for Constructing the Dynamic Frequency Characteristics of Laser Gyrometer with Alternating Frequency Meander Stand .....	129
---	-----
