

CONTENTS

Instrument Engineering, Metrology, Information-Measuring Instruments and Systems

Drach V.E. Analysis of MOSFET Transfer Characteristics Shear	4
Zherdev A.Yu., Lushnikov D.S., Markin V.V., Odinkov S.B., Smirnov A.V. Method and Equipment for One-Stage Digital Recording of Colour Full-Parallax Holographic Stereogram	16
Bordachev D.A., Shustov I.E., Podchezertsev V.P. Experimental Research of Temperature Control System of a Precision Gyroscopic Meter of Angular Velocity Vector	24
Rogatkin D.A., Lapitan D.G. Interface of Communication with Service Medical Robot Communication	35

Informatics, Computer Engineering and Control

Burenkov V.S., Ivanov S.R. Method of Constructing Abstract Models for Protocol Verification of Cache Coherence in Scalable Systems	49
Zubov N.E., Mikrin E.A., Ryabchenko V.N. Synthesis of Astatic Linear Systems Control Based on Generalized Ackermann's Formula	67
Padalko S.N., Terentiev M.N. Self-Organization in the Tree Personal Wireless Networks with Multiple Gateways	75
Abbasova T.S. Optimization and Standardization of Optical Media of Computer Complexes Cooperation	86

Radio Engineering

Fokin Yu.M. Reference Voltage Generator for 12-Bit Pipeline ADC with 100 MHz Sampling Frequency	100
--	-----

Aviation, Rocket and Space Engineering

Voronin F.A., Pakhmutov P.A., Sumarokov A.V. On Information-Control System Modernization Introduced in the Russian Segment of International Space Station	109
--	-----
